

Carat helps leading brands drive revenue, reduce costs and grow at global scale. Here's how our Global Acquiring, Prepaid and Payouts capabilities helped one company roll out cost-saving, customer-pleasing efficiencies.

A large, diverse crowd of people, mostly young adults, are shown from the chest up, cheering enthusiastically. Many have their arms raised in the air, some with open mouths as if shouting or singing. They are wearing casual clothing, including t-shirts, tank tops, and sunglasses. The background is a bright, slightly overexposed outdoor setting, likely a stadium or arena. The overall mood is one of high energy and excitement.

Our client needed the ability to
securely accept global payments,
offer gift cards and efficiently pay
employees.
